How to set up Virtual Host Configuration for Hikvision NVR

■ DS-7632NXI-K2/16P

The screenshot shows the 'IP Channel' configuration page in the Hikvision NVR web interface. The left sidebar contains navigation options like 'Channel Management', 'Device Access', and 'System Configuration'. The main area displays a table of IP channels with columns for Channel, Camera Name, Custom Protocol, Device C..., Manage..., Security, Status, Protocol Type, Connect, and Operation. A 'More' menu is open for the first channel (D1), showing options for 'Camera Microphone Configuration', 'Virtual Host Configuration', and 'Enable Virtual Host'. The 'Enable Virtual Host' option is checked, and an 'OK' button is visible. Below the table, there is a section for 'List of Online Devices(0)' which is currently empty.

Chan...	Camera Name	Custom Protocol	Device C...	Manage...	Security	Status	Protocol Type	Connect	Operation
D1	IPCamera 01	Custom Protocol	1	8000	Risky	Offline(Network Disconnected)	HIKVISION	http://...
